MEMORANDUM FOR: Chief, Policy and Plans Group

FROM: Chief, Technical Security Division

SUBJECT: Classification of Technical Security  
Division Equipment (U)

25X1 1. (S) Audio Countermeasures equipment presently used by Technical Security Division is unclassified with the exception of the [REDACTED]

25X1 2. (A/IUO) Although most of our equipment is produced commercially and unclassified, the type of equipment and the methodology involved in its use during an Audio Countermeasures inspection is considered classified at the Secret level. As an example of the need of such a classification, [REDACTED]

[REDACTED] Based on this the Technical Surveillance Countermeasures Subcommittee of the DCI Security Committee has established through its procedural guides that the techniques involved and the equipment used as well as the results of Audio Countermeasures inspections be classified Secret.

3. (A/IUO) In the Physical Security Equipment Field, certain devices and techniques used to protect Agency assets are very sensitive and at times Agency unique. [REDACTED] 25X1

[REDACTED] are examples which fall in this category. They are considered classified at the Confidential level. 25X1

[REDACTED] equipment developed either by the Agency or by other members of the Intelligence Community are classified Secret. 25X1

[REDACTED] 25X1
